MEMORANDUM FOR: [REDACTED]

25X1A

SUBJECT : SSC Staff Interest in [REDACTED]

25X1A

1. As I told you previously, the SSC Staff wants to make several case studies of the Community role of the DCI in the budgetary process. They would like to look at a case in which the DCI's view prevailed over that of DoD, and also at a case in which it didn't.

2. It has been suggested that [REDACTED] and the DIA building are good candidates for the former case. Since the DIA building is last year's issue there should be no problem in using that. With [REDACTED] however, we are dealing with an issue that is "live" with our regular committees and must take care to avoid the appearance of a jurisdictional dispute between the regular committees and Senate Select.

3. I do not believe the regular committees will object to using [REDACTED] as a case study since the objective of SSC Staff is not to make a conclusion on the substance, but rather to illustrate the DCI's budgetary role. We should, however, at least notify the regular committees of our intention to raise [REDACTED] with Senate Select.
